

Score Verification Made Easier

With the LANGUAGECERT SVS

A System Designed for Higher Education Institutions

LANGUAGECERT SVS is a secure, proprietary score verification system designed to verify candidate results with confidence across all LANGUAGECERT exams.

Designed to reduce manual effort while maintaining reliable score checks for admissions teams.

1 High-volume ready
Supports regular result checks at scale

2 Stronger security
Requires secure login, restricting access only to authorised users

3 Efficient administration
Simple and fast workflows to verify test scores

» Six core system capabilities for result verification

Securely verify candidate results

Receive notifications when candidates share results

Search and review previously assigned results

Access the Admissions Toolkit for useful resources

Filter results using a variety of criteria

Manage authorised administrator and user access

>>> What is an API

An **API** (Application Programming Interface) is a **set of rules** that **allows two systems to talk to each other**.

In practice:

An institution sends a LANGUAGECERT's score Unique Reference Number → our API checks the database → it returns a verified pass/fail score report. No emails. No manual checking. No risk of fraud.

LANGUAGECER™ Integration

LANGUAGECER™ Academic results are available through Slate, StudyLink and Ascent One, with direct API integration also available for institutions' own systems. This gives admissions teams flexible access to official results within platforms and existing workflows they already use.

This helps admissions teams:

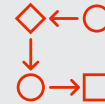

Receive scores
securely and
automatically

Reduce manual
uploads, email
handling and
portal checks

Strengthen
score verification
and integrity

Review results
inside their existing
admissions
workflow

Support faster
decisions for
international
applicants

Available through Slate, StudyLink, Ascent One
or direct institutional API integration

»» How to get started

1 Complete the LANGUAGECERT recognition form

Scan me!

2 Receive access and log in to your LANGUAGECERT Score Verification System account at verification.languagecert.org.

3 Enable the LANGUAGECERT integration within your platform.

If you need any support, please contact us at partnership@languagecert.org and we'll be happy to help.

Thank you!

by PeopleCert
